1. DEPOSIT POTENTES

[Lyrics: taken from Bible]

Deposit potentes de sede et exaltavit humiles.

2. THRESHOLD OF MIRACLES

[Lyrics: Zhivko Koev]

Lost in a twilight world
Shaking in fear
Unheard prayers we scream
At the threshold of miracles

We are shaped by the phantoms we fear
We are fashioned by nightmares, aren't we?

Frozen in place
Owned by what we possess
Honoring false limitations

We experience true initiation

There is a way through the darkness ahead
We cross the threshold
We choose to have faith

We are shaped by the trials we face

Our nightmares show us the way

Darkness before me
As night hides my morning

I face the ghosts
That I fear the most
Yet I know

There is a way through the darkness ahead
We spread our wings
We have faith

Shaking in fear as the demons draw near
We cross the threshold of miracles

See miracles take place	I ascend
See angels gather near	I ascend
As I ascend to face	I ascend
The deepest of my fears	I ascend
See angels gather near	I ascend
See miracles take place	I cross the threshold now
I cross the threshold now	I rise to face my fears
I rise to face my fears	I rise to face my fears

See miracles take place	I ascend
See angels gather near	I ascend
As I ascends to face	I ascend
The deepest of my fears	I ascend
See angels gather near	I ascend
See miracles take place	I cross the threshold now
I cross the threshold now	I rise to face my fears
I rise to face my fears	I rise to face my fears

Journey to the west
Journey to the east
Journey through the dark
Stand against the beast

There is a way through the darkness ahead
We spread our wings
We have faith
Shaking in fear as the demons draw near
We cross the threshold of miracles

Brave the storm
It's time to be reborn

I rise in grace
My fears I face
I cross the threshold
Heaven penetrates earth

3. TEARS TO SPLENDOR

[Lyrics: Jeff Scott Soto]

Ohh - fear rising again
Ohh - tears fall again

Look in the mirror
Tell me do you like what you see?
Signs are clearer
They reveal who you're meant to be

You're troubled and seething
Sands of time are passing your soul
Barely breathing
Running blind, no sense of control

No surrender, the real pretender
Tears to splendor you go
Heart is bleeding, you've stopped believing
The storm's unweaving you know

Don't wait til tomorrow
You must somehow find your way back home
Dreams of your sorrow
Realizing that you're all alone

Scared and uneasy
With no one to take you away
Cold and demeaning
You feel blue skies turning to gray

No surrender, the real pretender
Tears to splendor you go

Your heart is bleeding, you've stopped believing
The storm's unweaving you know

Ohh - fear rising again
Ohh - tears fall again

No surrender, the real pretender
Tears to splendor you go
Your heart is bleeding, you've stopped believing
The storm's unweaving you know

No surrender, the real pretender
Tears to splendor you go
Your heart is bleeding, you've stopped believing
The storm's unweaving you know

Ohh - fear rising again
Ohh - tears fall again

4. DIES IRAE

[Lyrics: Douglas R. Docker]

Dies Irae
Will possess your soul

Rage is what made me survive so long
Blinding white light makes me strong, so you fall

Dies irae
Dies illa
Solvat seclum
In favilla

Rage is power
You will feel immortal
Yet soon will it
Annihilate your mind
And your soul

Dies irae

See, can you see my eyes in the night
Burning bright, taste my revenge
Hate, my mind is sharp as a blade
Through your heart, a new world without you

Dies irae
Dies illa
Solvat seclum
In favilla

Rage is power
You will feel immortal
Yet soon will it
Annihilate your mind
And your soul

Rage
Will possess your soul
Will destroy your enemy
Feels like victory
It's the point of no return
From this cancer you will burn

Dies irae
Dies illa
Solvat seclum
In favilla

Rage is power
You will feel immortal
Yet soon will it
Annihilate your mind
And your soul

Dies irae
Rage
Dies irae

Dies illa
Too late, you have lost your soul
Dies irae

5. NEVER ASHES AGAIN

[Lyrics: Zoë Marie Federoff]

Aurora tandem advenit
Through moonless night
No road followed
No banner save my own
For dawn is breaking brighter for me

The war I have fought is extensive
Here at the end I stand
Beaten, bloody, soldiering on

Live to see the sunrise

My thirst is satiated
With the same tears I've cried
Outrunning the hand of fate

Resolute, we march, we sing, we bleed

Inside my dark heart there is no hope nor trust
How can life go back to the way it was

No tears, we see the map of stars above

I believe
I'll find my way back home
Rise again
Abandoned, tortured and alone cuz

Every dawn breaks brighter
When the moon was dark before
And the lonely souls still aboard a ship

Sing at sight of familiar shores
The embers of my life will burn and glow
This I know, never ashes again

The concept of comfort is abstract
Memories long since gone
Bled out in this merciless fight

Live to see the sunrise

Nevertheless I am breathing
Filling my lungs with hope
I'm ready to let out a battlecry

Resolute, we march, we sing, we bleed

You will never know all that I crossed to see
The embrace of these mountains
Endless fields of green

Home
I see it finally
Now I know
The calm after a stormy sea, cuz...

Every dawn breaks brighter
When the moon was dark before
And the lonely souls still aboard a ship
Sing at sight of familiar shores
The embers of my life will burn and glow
This I know, never ashes again

Facing opposition
Finding hope

See my dawn that's breaking brightly
After moonless nights before
Never doubt the strength inside of me
To make it home once more

Every dawn breaks brighter
When the moon was dark before
And the ship that holds my lonely soul
Can finally see the shore

Every dawn breaks brighter
 Broken made whole
When the moon was dark before
 Ever we're healing
And the lonely souls still aboard a ship
 We march on
Sing at sight of familiar shores
 Ever on

The embers of my life will burn and glow
This I know, never ashes again

6. ROYAL OVERTURE

(Aah)

7. HYMN OF LIFE

[Lyrics: Rob Rock]

I awake in a dream of illusion
I've been lost in a sea of dismay
I can feel every breath of your presence
As I search for the answers today
I envision you standing beside me
As I reach for the touch of my friend
Since you're gone I can only imagine
Our new moment together again

Is there a new horizon?
Will the clouds begin to fade away?
The pain is overwhelming
I know my life will never be the same

Like a wheel of fortune
In a fleeting moment everything has changed
Crying out into the dead of night
Memories that keep me in the fight
Trampled by the wheels of destiny

I've been waiting for you in the twilight
Staggering in a cruel twist of fate
Never knowing the reason for sorrow
Tragedy found its way to our gate
Unforeseen circumstance without warning
Leaving words left unsaid, left behind
I will see you again in the morning
In your heart I am there you will find

Life is just a stairway
Bringing us close, closer forever
No, you're not departed
There is no space that can divide us

In the river of life there's a journey
From the mountain that flows to the sea
There's an ocean of heartache and burden
In your eyes love is all that I see
Don't let go of my hand we're united
Everlasting, eternal, complete
And we live for the mystical union
And I know that you're always with me

Does this anguish ever die?
Does the pain ever subside?
'Cause you know our lives have bonded together

And the world will never see
All the love you brought to me
With a sacred heart I'll always remember

Lay me down
Lay me down

Slay me down
 Slay me down
Maybe it's all an emotion
 Maybe it's all an emotion

Life is just a stairway
Bringing us close, closer forever
No, you're not departed
There is no space that can divide us

Life is just a stairway bringing us close,
Closer forever and ever
 And ever

I awake in a dream of illusion
 What is my life?
I've been lost in a sea of dismay
 But to see you again
I can feel every breath of your presence
As I search for the answers today
 We're always together

I envision you standing beside me
As I reach for the touch of my friend
Since you're gone I can only imagine
Our new moment together again

8. SYMPHONY OF DEATH

[Lyrics: João Luís]

I'm trapped, cornered and still
Outside death's drawing near

Satis est bellum

Comrades were rushing towards
enemy lines, spraying mortars and bullets
A sudden pause, all stared to the sky

That's when it arrived

Satis est bellum

Vultus circum

Vultus circum

Through the glass I see it kill

Strike the person's name with its quill

With a finger's touch a body drops

Scythe unmoved, clean, untouched

It kills only those who killed

Civilians caring for their own

Got to live, were not alone

Is this an answered prayer

A sign to the world

Or just the end of ...?

Please just take me home

Don't know why or what I'm fighting for

Those who led us astray should be here

"For the nation!", extermination

In the mist, deathly beauty and fear

The mechs undergo their drill

Sights of horror, dust and tears

Death's unscathed it continues still

It continues still

It kills only those who killed

Civilians caring for their own

Got to live, were not alone

Is this an answered prayer

A sign to the world

Or just the end of ...?

Please just take me home

Don't know why or what I'm fighting for
Those who led us astray should be here
"For the nation!", extermination

Death's hell eyes burn on me

Et quis fortes
Qui vultus
Invenies
Hoc praemium
Frui

Pulsate mortem
Pulsate mors
Pulsate mors
Fatum pulsat

It killed only those who killed
Civilians caring for their own
Were not alone

Is this vision the truth or am I...?

Please just take me home
Don't know why or what I'm fighting for
Those who led us astray should be here
"For the nation!", exoneration
"For the nation!"

9. REVOLUTIONARY ODYSSEY

- part 1: THE JOURNEY
[Lyrics: Mitheria]

Un'odissea il mio viaggio
Non c'è più pace nella mia vita
Sento dolor nel mio cuor
Nella mia forza confiderò

- part 2: THE REBEL
[Lyrics: Nick Z Marino]

War is here
And all we feel is rage

Rebellious, that's how I feel
Rebellious, don't wanna kneel
Armies are marching in
To take our freedom
We can't give in

Rebellious, we feel the same
Rebellious, we can't be shamed
This is our land and we will fight for it until the end of time

Anger and revolt
We cannot sell our soul
We must rise and for our land we will die

Passion and strength within
Will give us self esteem
We must rise and for our land we will die

Rebellion
Fight for our freedom
Stand and live to fight another day

Rebellious, that's how I feel
Rebellious, don't wanna kneel

Bright shining days
Music and friends
Are missed
For heavenly peace
We are longing now

Anger and revolt
We cannot sell our soul

We must rise and for our land we will die

Passion and strength within

Will give us self esteem

We must rise and for our land we will die

Rebellion

Fight for our freedom

Stand and live to fight another day

Rebellion

10. ALIGHT

[Lyrics: Chiara Tricarico]

In the sand, my journey starts now

On the dunes, I'll find her somehow

In my soul the wildest fire

Through my veins a burning desire

In the wind I can smell her scent

Hear that voice when the dark descends

In my dreams we reunite

Even if she's out of sight

Hear my call through the desert, in the night

Wait for me, keep the flame inside alight

It's my war for passion, till the end I will fight

Burning eyes, the skyline draws near

It's my mission, there is no fear

I can't wait, the moonlight glows

Deep inside my hunger grows

Hear my call through the desert, in the night

Wait for me, keep the flame inside alight
It's my war for passion, till the end I will fight

Come to me, keep the flame of lust alive
Through this hell, just for you I'll always strive
Waiting for the night that
Our souls intertwine

11. THE ABSOLUTION

[Lyrics: Chiara Tricarico]

The last time we talked was so tough
Then I said: "enough is enough"
Since then many things have changed in our lives
Well, I still remember your spites
All your wicked games and the fights
I can't ignore all the wounds you left

Is there a way to carry on? To end this bane?
To erase the pain?
I'm fighting so hard to break these chains
To liberate myself

I will forgive in this life I live
I can't forget, how do you cope with regrets?
This is the day that I'll let my tears drain
Can't waste my time, I'll free my mind, don't ask me why
Let our lives go on

Maybe in the end it's right
To let go, to see the bright side
There is no reason to feel this way
Cause for all the times I felt angry a part of me has died
I've had enough

Now I know a way to carry on, to end this bane,
To erase the pain
I fought so hard and broke those painful chains

And liberated myself

I will forgive in this life I live
I can't forget, how do you cope with regrets?
This is the day that I'll let my tears drain
Can't waste my time, I'll free my mind, don't ask me why
Let our lives go on

I will forgive in this life I live
I can't forget, how do you cope with regrets?
This is the day that I'll let my tears drain
I can't waste my time, I'll free my mind
Let our lives go on

12. MANIA

[Lyrics: Zoë Marie Federoff]

Manic, we are endless
Fragmentation, distress
Hear us, feel us, free us, need us
Voices in your head

Manic, we are endless
Fragmentation, distress
Hear us, feel us, free us, need us
Voices in your head

Whispers turn into screams
Hurricane inside me
Future endless terrifying possibilities

Too awake, too alive

An overload of color
Bleeding red into my grey
The biting fear of consciousness
That anchors me to pain
Who am I amidst the chaos

Never ending storm inside
Ever moving, ever changing I don't feel apart of time

Of time

Shattered echoes of life
Solace nowhere in sight
Breathless, shaking, sleepless, breaking
Who am I right now

Are you the now?

An overload of color
Bleeding red into my grey
The biting fear of consciousness
That anchors me to pain
Who am I amidst the chaos
Never ending storm inside
Ever moving, ever changing I don't feel apart of time

I exist, I swear I exist
I am more than these images
More than these feelings
More than this pain
The question is
Just what am I?

Blackened dead stare
Formless nightmare
My face in the mirror

An overload of color
Bleeding red into my grey
The biting fear of consciousness
That anchors me to pain
Who am I amidst the chaos
Never ending storm inside
Ever moving, ever changing I don't feel apart of time

An overload of color

Bleeding red into my grey
The biting fear of consciousness
That anchors me to pain
Mania, the discord growing
Not a melody inside
Never harmonizing with it, I don't truly feel alive

Shattered echoes of life
Solace nowhere in sight
Breathless, shaking, sleepless, breaking
Who am I right now

Are you the now?

13. POWER TAKE HOLD

[Lyrics: Jordan Von Grae]

Over and over, over, over
Ride with the wind
Towards the sun and with might ascend
Ascend, ascend
Bury your fear and let power take hold

I've taken the long road
And though I must walk
It's been such a site to behold in my time
From mountains to bedrock
I've roamed through this land
Carefree and wild
Untamed by one's hand
Forevermore

Through fire and ice
And the dark of the night
None have succeeded in
Fading my light

Nothing can stop me

I've conquered it all
I've flown ever high
Never to fall

Over and over I ride with the wind
Towards the sun, and with might, I ascend
With pride, I have found that the key to one's soul
Is to bury your fear, and let power take hold

Through all my travels, I've met but a few
Who've envied the fire that colours my truth
And though they had voiced their disdain at my awe
They warned me my pride would lead my downfall

Would that I'd listened
I could've remained
A titan of victory
I wish I could go back
To the time I had more to see

Over and over I ride with the wind
Towards the sun, and with might, I ascend
With pride, I have found that the key to one's soul
Is to bury your fear, and let power take hold

I couldn't see it from afar
He couldn't see it from afar
Afar

Now that I've seen the mistakes of my past
Could I rekindle the fire I lost

Over and over I ride with the wind
Towards the sun, and with might, I ascend
With pride, I have found that the key to one's soul
Is to bury your fear, and let power take hold

Over and over I ride with the wind
Towards the sun, and with might, I ascend
With pride, I have found that the key to one's soul

Is to bury your fear, and let power take hold

Power take hold

14. EVOLUTION

[Lyrics: Melissa Ferlaak]

Say goodbye to what's come to past

Wonder has gripped the imagination
Invention has inspired a new fascination
Unlocked within us, a fiery passion

Evolution energizes what's to come
While we elegize the past
Beating future's imminent drum
Say goodbye to what's come to pass

Rapt by fear, the people will fall and lose
The future has proved a greater muse
Illumination lit the fuse, lit the fuse

Evolution energizes what's to come
While we elegize the past
Beating future's imminent drum
Say goodbye to what's come to pass

At the edge of the pendulum,
Where did it go, this reflection, this sentiment?

Beating future's imminent drum
Say goodbye to what has passed

Evolution energizes what's come to pass
We elegize the past to day

Beating future's imminent drum
Say goodbye to what has come to pass

Evolution energizes what's to come
While we elegeize the past

Beating future's imminent drum,
Say goodbye to what's come to pass

Beating future's imminent drum
Evolution energizes what's to come

Beating future's imminent drum
Imagination
 Say goodbye
Illumination

15. THE EYE OF THE GUARDIAN

[Lyrics: Simone Dino Bet]

Feel the moment, the path lies straight ahead
Your closing in now
I watch your every step

My claws are sharp my gaze is cold
If you intrude you won't grow old, hear me roar
My legend's been foretold

I'm standing here
Watching the night, protecting the dearest

The eye of the guardian is vigilant, is diligent

When it seems like there's nothing left to do
Close your eyes and take a look inside
Nothing ever stays unseen forever, oh no

So let the feelings be your guiding light
Anticipation will become salvation

Close your eyes, open your mind

I feel the moment, the ease of your rest
Nothing will hurt you
I watch your every breath

My heart is pure, my soul is old
What lies beneath cannot be told
Hear my vow, these feelings will unfold

A plunge into darkness, a drop through the silence
The numbness is all I can feel
No hard felt emotion, no inner devotion
The void in my soul is so real

I am descending now,
Deeper down to the core
 What is it you're looking for?

Here lies a hidden truth
A mother's song, an ancient lore
 What is it you're wishing for?

My journey's ending
I will arise, I will ascend
 Meaning is what your heart needs to mend

I'm standing here
Watching the night, protecting the dearest

The eye of the guardian is vigilant, is diligent

When it seems like there's nothing left to do
Close your eyes and take a look inside
Nothing ever stays unseen forever, oh no

So let the feelings be your guiding light
Anticipation will become salvation

When it seems like there's nothing left to do

Close your eyes and take a look inside
Nothing ever stays unseen forever, oh no

So let the feelings be your guiding light
Anticipation will become salvation

The eye of the guardian is vigilant, is diligent

16. DEEP CORE

[Lyrics: Alessandro Del Vecchio]

God, tell me there's a sky above
No matter what's the price to pay
Oh, let me fight my dark side
Just let me go and show me what is love
Tell me there is nothing to lose
It's done, let me go

There is nothing that we can do
We can't fight all the odds
We must just hold
The tears we cry
Where's the limit to fall
That's where we all belong
Is there somewhere to crawl now
Some place where to hide
We can strive from within
On the climb to the deep core of life

God, tell me there's a sky above
 God, where is the sky above
No matter what's the price to pay
 And we will die for love again
Oh, let me fight my dark side
 Just, just our last time goodbye
Just let me go and show me what is love
 We can't control but our lives
Tell me there is nothing to lose

And face another dark night
It's done, let me go
In the name of life

There is nothing that we can do
We can't fight all the odds
We must just hold
The tears we cry
Where's the limit to fall
That's where we all belong
To the deep core of life

Che sia vita o morte, che sia

God, tell me there's a sky above
God, where is the sky above
No matter what's the price to pay
And we will die for love again
Oh, let me fight my dark side
Just, our last time goodbye from love
Just let me go and show me what is love
We can't control but our lives
And face another dark night
Trust there's a sky above us
There's a sky above us

Waiting
Longing for something
On the verge of the fall
On the climb to the deep core of life

Waiting
Longing for something
On the verge of the fall
On the climb to the deep core of life

Can we strain all our thoughts
Can we lose all our hopes
When there's none above

This is false, we got hope
Can't you see us above?

17. THE EMPIRE

- part 2: WRATH OF MORTALS
[Lyrics: Zhivko Koev]

Illuminati
Fear the
Wrath of mortals

They never ever last
That's the thing about empires

This one is built on sleight of hand
Its very nature is impermanence

You thought your suffocating grasp
On mankind's throat could last forever
Well, think again

You thought your reign would be eternal
If you could rule behind the curtains
Well, think again

The nature of your own deception
Is the downfall of your plan

Illuminati
Fear the
Wrath of mortals
Behold heaven ablaze
As pantheons fall
Under the
Wrath of mortals

The calm before the storm
We've reached the tipping point

A system out of balance
The laws of nature are your nemesis

You thought the world was in your hands
Now watch your castles turn to sand
And think again

You thought you had it figured out
Your new world order built to last
Well, think again

The very method to your madness
Is the downfall of your plan

Illuminati
Fear the
Wrath of mortals
Behold heaven ablaze
As pantheons fall
Under the
Wrath of mortals

Attain your goal
Supreme control
In this game of make-believe
Commit countless crimes
To become divine
In this game of make-believe

Then see your castles fall to ashes
In the game of make-believe

Illuminati
Fear the
Wrath of mortals
Behold heaven ablaze
As pantheons fall
Under the
Wrath of mortals

Illuminati
Fear the
Wrath of mortals

Illuminati

18. TRAGIC SERENADE

[Lyrics: Douglas R. Docker]

I want you back
Why are you far from me?
I want you back
Where have you gone?
Desolate place
This abyss before me

Shadows surround me
I miss your starlight

Though it's so sad
No turning back
The fear of loss is too strong
Better to be brave
Drown in the abyss

There's no escape
Am I to blame?
What am I to do
Take this pain away

Through the abyss
Your starlight calls me back
I'm shining in the dark
No, it's impossible
Yes, I will not despair
I still love you
I still miss you

Through the abyss
Through the abyss
Through the abyss now

Chained to our fears
And through the abyss
Look out for infinite days of
Pain and loss that never end

Into the abyss
So close we could touch
So lost and so unaware we
Share the same fate, hearts made of ice and fire

The time is now
But is it too late
The spark of love still shines for us?

So in the end
All we can do is
Hope to make contact
Through the abyss
